EDUCATION

King Mongkut's Institute of Technology Ladkrabang   **2025**

B.S. Information Technology, Minors in Software Engineering   Bangkok, Thailand

Chiang Mai Technical College   **2021**

Vocational Diploma - Information Technology   Chiang Mai, Thailand

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Java, Kotlin, Dart, HTML, CSS

Frontend Frameworks/Libraries: React, Next, Vue, Nuxt, React Native, Flutter, MUI, Ant Design, TailwindCSS

Backend Frameworks/Libraries: Node, Express, Spring Boot, Adonis, Prisma, Drizzle, Socket.io, Zod, Tanstack, Redux, Zustand, Riverpod

Databases: PostgreSQL, MySQL, MongoDB

Tools and Platforms: AWS, GCP, Docker, Git, GitHub, Firebase, Supabase, Figma, Jenkins, Github Actions

RELEVANT EXPERIENCE

Protoss Technology   **June 2024 - October 2024**

Software Engineer Intern   Bangkok, Thailand

- Maintained, Fixed and added features for a logistics management application serving real customers on a legacy codebase using Vue, Flutter, Adonis and MySQL. Worked within an agile Scrum framework to improve system functionality and user experience

- Designed, developed and integrated a chat system in a month from scratch using Socket.IO and Firebase, creating a scalable real-time communication platform between mobile and desktop users with image sharing, notifications, and message tracking capabilities

Faculty of Humanities, Chiang Mai University   **December 2020 - January 2021**

IT Support Intern   Chiang Mai, Thailand

- Provided technical support and troubleshooting for client computers and electronic devices, resolving hardware and software issues efficiently

SELECTED PROJECTS

hor-mahalai-kmitl-project   **May 2023**

- Developed a web application for dorm managers and potential renters using Vue.js frontend with Express.js and Prisma as backend

Billionaire Store   **November 2024**

- Designed and led a development team in creating a semi-ERP/CRM system using Java Springboot in microservice architecture such as inventory management, customer relations, and business operations

SKILLS AND CERTIFICATE

- **Languages:** Thai (Native), English (Advanced - TOEIC Certificate with a score of 850)

- Strong analytical thinker, quick and eager to learn new tools and highly adaptable to change

- Proficient usage of Windows, Linux, Microsoft Office and editing tools such as Photoshop, Premiere Pro, Sony Vegas and Illustrator
